YAML SCRIPT

https://github.com/HackdaNorth/cloudFormationYaml

its sitting on my Git-hub because its easy to read for you and it took up almost 9 pages inside this document.

I'M NOT SURE WHAT HAPPENED TO MY AWS ACCOUNT BUT I CAN NO LONGER CREATE NAT GATEWAYS???? I ATTEMPTED A LOT OF TIMES BUT ONLY KEPT GETTING THIS MESSAGE

Timestamp	Logical ID	Status	Status reason
2021-12-04 16:53:05 UTC-0500	newL3	CREATE_FAILED	The following resource(s) failed to create: [NATTwo, NAT].

Here is an example, I cannot even create an NAT outside of CloudFormation to test my web servers.
